

**AMHERST ISLAND WIND ENERGY PROJECT  
COMMUNITY LIAISON COMMITTEE MEETING #4**

On August 24, 2015, the Ministry of the Environment and Climate Change granted a Renewable Energy Approval (REA) for the Amherst Island Wind Energy Project (the Project), an up to 26 wind turbine, up to 75 megawatt (MW) wind project within Loyalist Township in the County of Lennox and Addington in eastern Ontario. On August 3, 2016 the Environmental Review Tribunal dismissed an appeal of the REA and the Project has proceeded to construction.

The REA requires that a Community Liaison Committee (CLC) be established for the Project. A notice was published in November, 2015 to invite residents living within 1 km of the Project and other interested parties to apply to be CLC members by December 3, 2015. The CLC has now been established and three meetings have been held, December 7 2016, November 30 2017, and July 10 2018. This notice relates to the fourth CLC Meeting.

**CLC MEETING #4**

Date: November 29, 2018

Time: 7-9 pm

Location: Amherst Island Public School, 5955 Front Rd, Stella, Ontario

The goals of the fourth CLC meeting are to provide an update on Project milestones, schedule and review the Terms of Reference. The meeting will be open to the public for observation and, time permitting, for questions and comments from the public related to the Project's construction, operation and decommissioning activities.

In general, the CLC meetings will provide a venue to provide project updates, discuss and resolve issues and hear concerns and interests of the community, as provided by CLC members.
